EFFECT: Removes an exclusion from the definition of "limited service pregnancy center" for organizations (other than licensed health care entities or providers) that provide medical care for pregnant women, birth control, or abortion or abortion referral.

Changes the disclosure requirements so that a center must disclose whether the center does or does not provide (1) abortion or comprehensive birth control services, or referrals to such services; or (2) medical care for pregnant women and, if providing medical care, what types of medical services it provides.
